

## YEAR 3 PLANNING FOR TUESDAY 21<sup>ST</sup> APRIL 2020

Good morning Year 3,

Hopefully you are all now set up with your Google account and you have joined the Year 3 classroom yesterday for our first set of live lessons. If not, please do so today. We will resume our normal curriculum as soon as possible. The majority of you were on time to our Google Meet live sessions yesterday and it has really made me **so happy** to see you all.

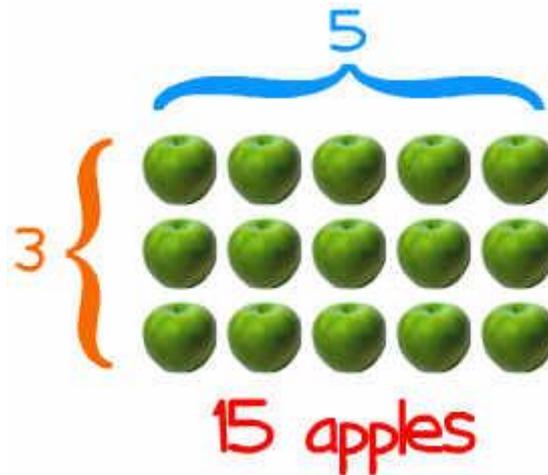

**You can email me directly on [year3@calpeschoolonline.com](mailto:year3@calpeschoolonline.com)** if you need help.

Here is the list of what I would like you to do today – there should not be anything here that you find too tricky but if you do need some support then let me know.

### LIVE MATHS WARM UP

**Aim: To multiply using arrays and pictures**

We will meet briefly in groups of 4 so I can introduce the activity. Your appointment times have been sent to your new email @calpeschoolonline.com They will appear in your Google Calendar and you can click on the Google Meet link at the correct time and you should see me and your group of friends on the webcam! All the documents are in Google Classroom and I will explain how to use the documents when we are live. **Please do not complete the activity before receiving the live instructions from me.**

### LIVE LITERACY – ACTS OF KINDNESS

**Aim: To conduct and record acts of kindness**

If you have been invited to the Live Literacy today you will get a full explanation on what to do for this activity. All the documents are in Google Classroom. Please wait for the live explanations before completing them.

If you have already received this live explanation yesterday, you know what to do today! You can also do the independent Literacy explained below.

## **INDEPENDENT LITERACY – BUG CLUB BOOK REVIEW**

**Aim: To read a book on Bug Club and write a review**

You are invited to read a book on Bug Club and then fill in a book review. You will find the instructions for this task in Google Classroom.

### **ENGLISH READING BOOKS ON BUG CLUB – Active Learn**

On Active Learn, you all have been allocated a Book Band with books at your level. By clicking the little bug icon on each page, you will be asked questions to see if you understand the story. Make sure to answer the comprehension questions!

Example:

Click here for the questions.

## **INDEPENDENT D&T TASK**

**Aim: To make a number spinner**

Use some recycled material in your house and make yourself a number spinner which we will use in future Maths lessons. You will find the instructions for this task in Google Classroom.

## **INDEPENDENT COMPUTING / SCAVENGER HUNT**

**Aim: To edit an Excel spreadsheet**

What are the resources at your disposition in your house? This tick list will help me plan our Distance Learning Classroom. Open the Excel spreadsheet and modify the document to practise your Computing skills.

If you don't have the Excel programme, you can type me a list in an email or Word document, or write it down on paper and send it to me by taking a picture or scanning it.

You will find the instructions for this task in Google Classroom.

I am so excited to see your friendly faces again today live on Google Meet.

Miss Julie
